AI & DATA

Sorra

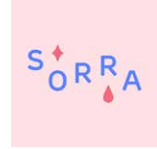

Website sorra.net

Fundraising Stage Series Seed

Location Hong Kong SAR

Founder Yi Kiu Chan

Short description Sorra revolutionizes the skincare industry with an AI-backed personalized beauty platform. This brand-neutral, data-driven platform matches users with suitable skincare products, addressing the challenges of skincare shopping. Sorra aims to empower consumers with authentic data and personalization for informed skincare choices.

Vidi Labs

Website vidilabs.com.hk

Fundraising Stage Series Seed

Location Hong Kong SAR

Founder Turzo Bose

Short description Vidi Labs' Seekr is a compact wearable designed to assist the visually impaired and elderly. This real-time vision aid uses AI algorithms to provide intuitive feedback on surroundings, enabling independent living and enhancing the quality of life for those with visual impairments.

Wonderbricks

Website wonderbricks.com

Fundraising Stage Series Pre-A

Location Hong Kong SAR

Founder Annie Liang

Short description Wonderbricks offers an AI-driven SaaS marketplace that empowers builders to design, fabricate, and deliver pre-assembled building components from factories to construction sites. This innovative platform streamlines construction processes, improving efficiency and sustainability in the construction industry.

Filmlace

Website www.filmlace.co

Fundraising Stage Series Seed

Location Singapore

Founder Lincoln Lin

Short description Filmlace connects businesses with content creators, offering a global platform that transcends language and legal barriers. From securing film locations to talent acquisition, Filmlace simplifies the process of connecting filmmakers with businesses. It facilitates collaborations across various creative projects, enhancing the content creation ecosystem.

Sencity

Website sencity.city

Fundraising Stage Series Seed

Location United States

Founder Steven Bai

Short description Sencity Corporation introduces SencityOS, an AI interactive operating system for public spaces. Their software and hardware solutions unlock the potential of urban environments by creating dynamic, interactive experiences within established spaces, enhancing information interactions and making public spaces more engaging and accessible.

BIOTECH & LIFE SCIENCE

Allegrow Biotech

Website allegrowbiotech.com

Fundraising Stage Series Seed

Location Hong Kong SAR

Founder Laurence Lau

Short description Allegrow Biotech is revolutionizing cell manufacturing with a proprietary platform that enables cost-effective, high-volume production of therapeutic cells. Their hydrogel microparticles and biomimetic coatings create an optimal environment for generating therapeutic cells, such as tumour-killing cytotoxic T cells, potentially accelerating access to life-saving cell therapies for patients.

Cell4D

Website cell4d.com

Fundraising Stage Series Pre-A

Location United Kingdom

Founder Zhe Lin

Short description Cell4D introduces the world's first cellular force omics chip for comprehensive cell biomechanical analysis. This non-invasive, label-free, real-time, high-throughput, low-cost cellular force omics chip collects valuable data for disease research and treatment, employing artificial intelligence to empower cell therapy, drug discovery, and precision medicine.

BIOTECH & LIFE SCIENCE

Delonix Bioworks

Website delonixbio.com

Fundraising Stage Series Pre-A

Location Cayman Islands

Founder Qiubin Lin

Short description Delonix Bioworks tackles the global challenge of *S. aureus* infections by leveraging synthetic biology tools and innovative mechanisms of action. Their approach offers a promising solution to combat antibiotic-resistant bacteria, with preclinical proof-of-concept data demonstrating exceptional potential in addressing this critical healthcare issue.

EggLogics

Website www.egglogics.com

Fundraising Stage Series Pre-A

Location Hong Kong SAR

Founder Tin-Lap Lee

Short description EggLogics elevates fertility treatment success with cutting-edge egg rescue and assessment technology for in-vitro fertilization (IVF). Their non-invasive, scalable solution increases the availability of high-quality eggs for IVF procedures, reducing the stress and pain associated with fertility treatments while improving outcomes for mothers.

HUA Cloud Intelligent Healthcare

Website N/A

Fundraising Stage Series Pre-A

Location Mainland China

Founder Yu-Lung Hsieh

Short description HUA Cloud Intelligent Healthcare introduces a painless blood test chip device that combines microneedles and microfluidic technology. This innovative device simplifies at-home monitoring for chronic diseases, contributing to efficient healthcare service delivery, reduced resource pressures, and improved patient satisfaction.

DEEP TECH & ROBOTICS

R2C2

Website r2c2.ai

Fundraising Stage N/A

Location Hong Kong SAR

Founder San Wong

Short description R2C2 develops universal full autonomy technologies that enable seamless collaboration among robots, improving safety and productivity. Their ARC platform standardizes robot communication, knowledge sharing, and navigation, allowing robots from various manufacturers to work together efficiently in complex environments.

Guangdong Shengpeng Technology

Website www.surpons.cn

Fundraising Stage Series Pre-A

Location Mainland China

Founder Weiren Fan

Short description Shengpeng Technology The company addresses thermal management challenges in 5G communications. Their focus on two-dimensional materials, particularly two-dimensional hexagonal boron nitride, contributes to innovative new materials research and development, supporting advancements in communication technology.

Shenzhen Shengyang Optical Technology

Website N/A

Fundraising Stage Series Pre-A

Location Mainland China

Founder Stanley Li

Short description Shengyang Optical Technology is a leader in ultrashort focus optics, specializing in technological innovation in this field. Their breakthroughs in ultra-short throw projection lenses challenge the global patent monopoly, addressing visual display challenges in projection, automotive displays, XR, and IoT applications.

AI Guided

Website www.ai-guided.com

Fundraising Stage Series Seed

Location Hong Kong SAR

Founder Hiu Ling Chan

Short description With a track record of 15+ awards and 8+ patents in 2 years, AI Guided pioneers a groundbreaking AI wearable. This innovative technology assists visually impaired individuals in navigating indoor and outdoor spaces, enhancing their mobility and independence. By seamlessly integrating AI vision, edge computation, and haptic actuation, this invention has promising applications not only in healthcare but also in enhancing accessibility across various domains.

 AI GUIDED

Crystallizer

Website crystallizer.com

Fundraising Stage Series Seed

Location Hong Kong SAR

Founder Cheuk Ying Lam

Short description Crystallizer presents a disruptive 3D medical imaging viewer to transform healthcare diagnostics. This advanced software enhances the visualization of complex medical images, empowering healthcare professionals and patients alike. With innovative features, it streamlines disease detection and improves patient care.

 CRYSTALLIZER

Fleming MedLab Limited

Website flemingmedlab.com

Fundraising Stage Series Seed

Location Hong Kong SAR

Founder Edwin Ty

Short description Fleming MedLab pioneers wearable robots that aid stroke survivors in regaining mobility and cognitive function. Their exoskeletons incorporate electrical stimulation and neuroscience principles to facilitate voluntary walking with minimal human assistance. The collected data trains AI algorithms for personalized rehabilitation and tracking of recovery progress.

Alcarbo Technologies

Website www.alcarbotechnologies.com.hk

Fundraising Stage Series Seed

Location Hong Kong SAR

Founder Pok Him Ng

Short description Alcarbo Technologies pioneers a groundbreaking algae photobioreactor system to efficiently capture and convert carbon dioxide into valuable by-products. Microalgae, highly efficient carbon-fixing organisms, offer a scalable solution, offsetting emissions and generating oxygen. This sustainable approach aligns with Hong Kong's Paris Agreement goals, fostering a green, profitable business while achieving carbon neutrality by 2050.

I2Cool

Website i2cool.com

Fundraising Stage Series Pre-A

Location Hong Kong SAR

Founder Yuzheng Gu

Short description I2Cool introduces passive radiative cooling technology capable of lowering surface temperatures without electricity. This innovative solution finds applications in diverse sectors, including building rooftops, solar panels, and outdoor electronics. I2Cool's energy-efficient technology addresses energy shortages, promotes sustainability, and contributes to carbon neutrality.

Wahu Mobility

Website www.wahu.me

Fundraising Stage Series Pre-A

Location Ghana

Founder Valerie Labi

Short description Wahu Mobility manufactures connected electric bikes designed to support sustainable fleet scaling for mobility service providers. Their Wahu Mobility's bikes enable cost-effective and eco-friendly transportation, connecting service providers with gig economy riders for seamless mobility solutions.

AT A GLANCE

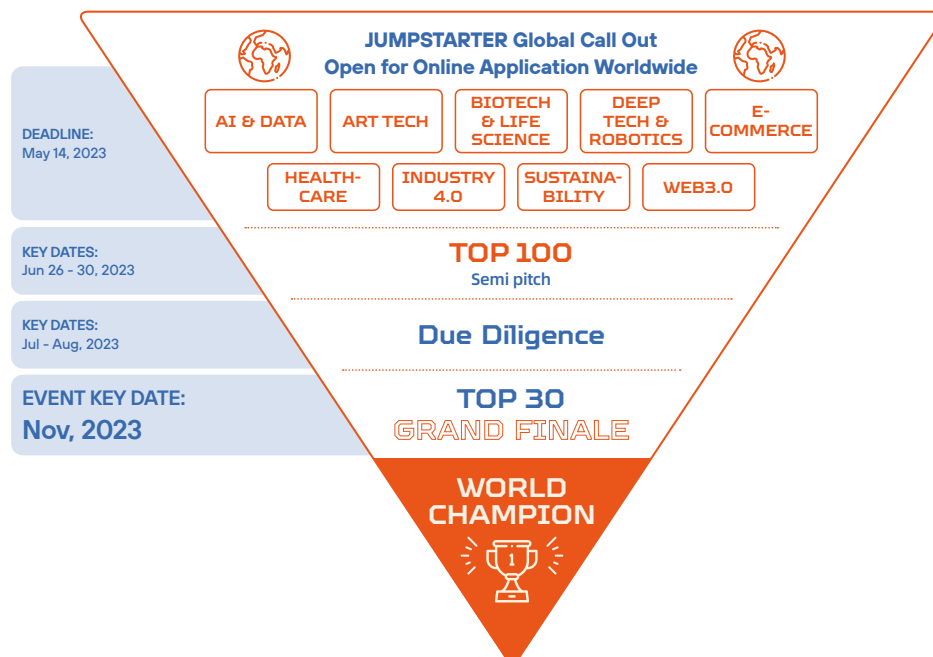

Alibaba Hong Kong Entrepreneurs Fund

Alibaba Hong Kong Entrepreneurs Fund ("AEF") is a non-profit initiative launched by Alibaba Group in 2015. To vitalize the development of innovation and technology, AEF's mission is to help Hong Kong entrepreneurs and young people realize their dreams and visions for a Hong Kong that is vibrant and engaged regionally and globally. As part of its investment program, AEF provides Hong Kong-based entrepreneurs with investment capital and strategic guidance to help them grow their businesses and penetrate the mainland Chinese and global markets, by utilizing Alibaba's Ecosystem.

JUMPSTARTER Global Pitch Competition

JUMPSTARTER is a not-for-profit initiative created by AEF that provides a platform for all entrepreneurs and young people to jump start their dreams in Hong Kong. This one-of-a-kind annual startup event has been organized since 2017 by AEF to celebrate young entrepreneurs from across the globe. The competition gives participants a shot at turning today's business ideas into tomorrow's reality with funding, networking and prizes. For more information, please go to the website:
